# OperrTel Phone System

Streamline your communication with our innovative cloud-based office phone system. Say goodbye to traditional phone systems with limited features and hello to a modern solution that adapts to your growing business needs. With our solution, you can easily manage your calls from anywhere, at any time. Whether you're in the office, working from home, or on-the-go, our cloud-based system allows you to stay connected to your customers and colleagues.

Our user-friendly interface and advanced features such as call forwarding, voicemail-to-email, call reporting, and automatic call distribution, ensure that your calls are handled efficiently and effectively.

No more hassle with hardware installation and maintenance, as our system is based on the cloud, which means all you need is an internet connection to start using it. You can scale your business effortlessly and save on hardware costs as well.

## Recordkeeping & Monitoring

Empower your business with our advanced office phone system and keep an eye on employee activities for better productivity and accountability. Say goodbye to manual monitoring and hello to a smarter way of work! Keep your workforce accountable and improve productivity with our cutting-edge technology and intuitive interface.

# System Features

**Auto Attendants** - allow you to set up a touchtone menu for your callers. For example, press 1 for the Sales, 2 for Support, etc.

**Groups** - Add similar users together, such as Billing, and ring them all simultaneously from a menu option or extension.

**Queues** - Automatically distribute calls to your sales or support representatives and provide a waiting room for overflow callers.

**911** - Grants users access to 911 services by defining a physical location for each user.

**Porting** - Allows porting existing number on to Operrtel, seamless transfer of call and handling.

**Custom Phone Numbers** - OperrTel has numbers available for purchase from many different area codes.

**Voicemail Boxes** - Setup a mailbox to manage voice messages and custom greetings.

**Voicemail-to-Email** - Allow callers to record messages when you're away and have those messages sent to your email as an audio file, or listen to them in our app.

**Announcements** - Play a recorded message to your callers when they reach a menu or enter into a queue.

**Business Hours Rules** - Set up your company's standard business hours free of charge using business hour rules.

**HD Voice Calling** - it's an expanded frequency range of audio signals, resulting in higher sound quality in phone calls.

# More System Features

**Hold Music** - Standard Music on Hold includes 3 genres. Upgrading to Enhanced unlocks Internet radio streams and uploaded audio files.

**HD Voice Conference** - Host an audio call for up to 15 simultaneous callers at an extension of your choosing.

**Call Blocking** - You can specify phone numbers that you do not want to receive calls from. OperrTel will automatically block any incoming calls from them!

**Call Parking / Pickup** - Allow one user to put a call on hold from one device and another user to continue the conversation from any other device.

**Personal Ring Strategy** - A user can set how long his/her ring time is and where to send a call if it's not answered (to a voicemail box, an external phone number, or any other destination in the OperrTel).

## **International Dialing**

Dial international phone numbers from your OperrTel account.

## **Call Recording**

Automatically enables recordings of calls.

## **Text Messaging**

Allows user to use same phone number for texting, sms MMS, inbound and outbound.

## **E-Fax**

Email to Fax feature allows user to receive fax on email and send fax from email as well.

## **Fax machine**

Conventional fax machine can be configured on fax line to work seamlessly.

## More Operr Services

**OperrWork** is an innovative enterprise management solution that gives company owners real-time insight into their business, employees, their tasks, house and overtime costs.

**OperrExpress** provides restaurants fast and easy delivery services along with a customizable business profile on [OperrExpress.com](https://OperrExpress.com) to manage their business profile.

**OperrParking** helps parking garage operators manage their daily garage business and keep track of all vehicles and transactions to make sure that your profits don't get stolen.

**OperrService Bureau** offers top rated billing solutions for the NEMT (Non-Emergency Medical Transportation) market. Experts at finding unclaimed funds from past bills.

**OperrCloud** offers any size business I.T. solutions. From website hosting to data backups, cloud services to consulting, we can help your business go digital.

**OperrTechnologies** creates dispatching software and ride booking applications for transportation and delivery markets.
